

**University of Science and Arts of Oklahoma**  
**Teacher Education**  
**2022 EPP Annual Accreditation Report**

**CAEP Accountability Measures (for CHEA Requirements) [2020-2021 Academic Year]**

**Measure 3 (Initial and Advanced): Candidate competency at completion. (R3.3)**

Data provided should relate to measures the EPP is using to determine if candidates are meeting program expectations and ready to be recommended for licensure. (E.g.: EPP's Title II report, data that reflect the ability of EPP candidates to meet licensing and state requirements or other measures the EPP uses to determine candidate competency at completion.)

**Title II Report 2022** - Title II Report Data from 2020-2021 Academic Year is not yet available due to a nationwide delay in the reporting process. The new deadline for Title II reporting was just released as June 30, 2022, and the EPP plans to make this data accessible to the public on our website by that deadline.

**Certification Examinations for Oklahoma Educators (CEOE)** - The Oklahoma State Department of Education (OSDE) and the Office of Educational Quality and Accountability (OEQA) require teacher candidates to pass the three certification exams to receive teacher certification in addition to completing all requirements for their accredited teacher education program.

The required certification exams are:

Oklahoma General Education Test (OGET)

Oklahoma Subject Area Test (OSAT) (passing of designated program OSAT required)

Oklahoma Professional Teaching Examination (OPTE) (available through the end of August 2021) or  
Praxis Performance Assessment for Teachers (PPAT) (replaces OPTE as of September 2021)

Note – All Program Completers must meet licensing (certification) and all additional state requirements in order to be counted as a Program Completer, thus 100% of Program Completers meet all licensing (certification) and state requirements. If a graduate does not meet all licensing (certification) and state requirements, then they are not counted as a Program Completer.

USAO's EPP had 19 candidates reach competency for program completion between September 1, 2020 through August 31, 2021. Of these 19 Program Completers, 7 took the OPTE as they were graduates before Fall 2020. The remaining 12 Program Completers took and passed the PPAT since the EPP began requiring the PPAT in Fall 2020. The EPP had 4 Graduates from the 2020-2021 Academic Year did not complete all program requirements within the reporting dates.

The majority of USAO's EPP 2020-2021 graduates, 12 out of 16 = 75%, successfully passed all required certification exams and met certification requirements at the time of graduation or within the semester immediately following graduation.
