

Measure 4: Satisfaction of Completers (CAEP 4.4/A.4.2)

The First Year Teacher Survey provides evidence of the satisfaction of USAO's EPP Program Completers. The Office of Educational Quality and Accountability (OEQA) administers the First Year Teacher survey every spring. The survey is aligned to the Interstate Teacher Assessment and Support Consortium (InTASC) standards and seeks information from program completers about their satisfaction of their preparation provided by the EPP. The First Year Teacher Survey results are reported annually by OEQA to the Oklahoma EPPs.

First Year Teacher OEQA Survey results indicate that the majority of USAO's EPP Program Completers are overall satisfied with their preparation with the majority of ratings falling in the top two levels (agree and strongly agree) for each survey item for both years represented through the survey links below.
